#### Co-occurring workgroup

**Daniel King**

- Discussion of the proposal brought forward by the workgroup.
- Language reviewed from HB452 (which was not passed) and upcoming proposed rule changes.
- Making decision to take proposal to the board to possibly remove CS endorsement.
  - Committee Reviewed the language on supervision by LICDC, LDCDIII, and CS holders.
  - LICDC is already doing the supervision; current distinction adds a layer of complication without value added.
  - Considerations if there is removal of the CS endorsement:
    - Negative financial impact; Removal of test for CS, possibly move the testing to the LICDC requirement or remove IC&RC CS test altogether
    - Make supervision CEUs a requirement for LICDC holders.
    - Continuing ed for renewals in supervision is sufficient.
    - No education requirement changes or add to LDCDIII and LICDC clinical supervision CEU requirement (3 hours for application and 3 for renewal for the LDCDIII and LICDC.
    - What to do about the CS education requirement?
    - What about IC&RC reciprocity to other states if did not take the exam or CS education

requirements.

- Removal of training supervision requirement suggested for the LICDC-CS
- Recommendation to the board to get rid of CS; define as below in authority ORC codes.
- Co-occurring disorders discussion group report: Decision was not to seek the endorsement for co-occurring disorders.
  - The reason to not pursue endorsement is to ensure there is no argument to be made that addressing co-occurring disorders is working outside of our scope.
  - Adding CEU requirement in working with working with people with co-occurring disorders.
  - Create the flexibility in authority to introduce the Board rules on who is permitted to treat COD, gambling, etc.
- Reviewing proposed 4758.54 changes
  - “Diagnose and treat behavioral health conditions related to substance use disorder. (LCDCIII under supervision as is, LICDC no supervision), and LCDCII “treat behavioral conditions as related to substance use disorder” in appropriate ORC authority code.
  - remove “refer individuals with conditions outside of scope of practice to appropriate sources of help” as this is already defined in Code of Ethics 4758-8-01 (B)(1)(b)
  - Scope of practice is defined in Code of Ethics, competency.
- Recommend to the board that we follow as written in ORC proposal and rely on the Code of Ethics in managing scope of practice and competency.

#### **ORC Review**

**Chair, Lisy**

- No changes not already listed above.

#### **OAC Rules**

**Jill Smock**
